

OPERATIONS CONTENT GROUP Stage 2

Assignments

- Draft four Appendices to be fed to the TIGR
 - Outage Coordination Appendix
 - Public Market Appendix (RTO Website)
 - Dispatch Appendix
 - Metering Appendix
- Review Stage 1 Implementation Analysis

Approach

- Assigned small groups to work on drafts of
 - Outage Coordination Appendix
 - The group intends to start with the NWPP Coordinated Outage System (COS) and identify provisions with respect to the RTO that need to be addressed
 - Public Market Information Appendix
 - The group is reviewing the DSTAR Website Appendix table of contents and bracketing areas in the appendix that will need input from others, especially market participants

Approach (cont.)

- Assigned small groups to work on drafts of
 - Dispatch Appendix
 - The group is reviewing the DSTAR Dispatch Appendix table of contents, bracketing areas in the appendix that will need input from other groups, and identifying issues
 - Metering Appendix
 - The group is listing the issues that need to be addressed in the Metering Appendix and working with members of other groups (such as BLST)

Approach (cont.)

- Implementation
 - Operations Content Group members are reviewing the Stage 1 Implementation Analysis to identify areas of significant change since Stage 1
 - Work on a transition / implementation plan will continue after the assigned appendices have been drafted

Next Meetings

- Operations Content Group will meet
 - March 8 - 8:00 a.m. to 2:00 at RTO West
 - March 22 - 8:00 a.m. to 2:00 at RTO West
